TORINO/ITALY

The Place

Via E. Fenoglietti, 20
On the 3rd floor of Green Pea building

A.R.T. Global & Klinghardt Institute

We are thrilled to invite you to the 7th International Conference **Our Health Our Future**.

This year's conference is designed to address some of the most urgent health questions emerging in the post-COVID era bringing together leading experts, practitioners, researchers and patient communities to explore these often complex and interconnected challenges.

Prof. Giovanni Frajese
Dr. Judy Mikovits
Dr. William Lee Cowden, MD
Rob Verkerk PhD
Prof. Gerald H. Pollack PhD
Prof. Angus Dalglish
Daniela Deiosso MSc
Gilian Crowther MA (Oxon), NT/ND
Fabio Zoffi PhD
Dr. Nicola Antonucci
Dr. Giuseppe Marinaci

SPEAKERS

OUR HEALTH OUR FUTURE
OVERVIEW / TORINO-2025

OUR HEALTH OUR FUTURE OVERVIEW / TORINO-2025

Key Topics include

Post-Covid Medicine

The lingering impacts of COVID-19, including the ongoing effects of the spike protein, immune dysregulation and turbo cancers. Our speakers will share the latest clinical findings, therapeutic strategies and pathways to better understand long COVID and how to keep ourselves protected.

Detoxification in an increasingly Toxic World

From WiFi and EMF exposure to heavy metals and chemical pollutants, there is an ever-increasing toxic burden being placed on all living beings - as well as on the planet. Talks will focus on evidence-based detoxification strategies and protective interventions.

Children's Health: Autism, Anxiety, ADHD, PANS/PANDAS

Over recent years there has been an explosion in the rates of neurodevelopmental and neuropsychiatric disorders in children (and adults). Our speakers will focus on support strategies for children and families, looking at some of the specific issues now affecting increasingly more people.

Dental Health as a Systemic Issue

Bringing a spotlight to the often-overlooked connections between oral health and systemic disease, including hidden infections, dental materials, and the oral microbiome.

The Fourth Phase of Water and its Role in our Health

Our special guest speaker has uncovered evidence for water's long-sought fourth phase and he is actively pursuing its ramifications, focusing particularly on the close linkage between wellness and water's fourth (EZ) phase.

OUR HEALTH OUR FUTURE PROGRAM | 27/28 - 09 - 2025

Saturday

Beyond Biology: What It Means to Be Human in the 21st Century

Robert Verkerk, PhD

9:30 am

Founder of the Alliance for Natural Health International, Robert Verkerk is an internationally recognised multi-disciplinary scientist with over 40 years experience in health, agriculture and environmental sustainability. He is the author of 60+ scientific papers.

The Fourth Phase of Water: Its Role in Health

Prof. Gerald H. Pollack PhD

10:30 am

Professor of Bioengineering at the University of Washington, Gerald Pollack's book, The Fourth Phase of Water, won the World Summit Excellence Award. The recipient of numerous awards, he has presented his groundbreaking work at the United Nations.

An Objective Review of the SARS-CoV-2 Virus Narrative and Its Genetic Therapy

Prof. Giovanni Frajese

12:00 am

University Professor of Endocrinology and Advanced Medical and Surgical Technical Sciences at the University of Rome Foro Italico. His research focuses on neuroendocrine interactions, he is recognised for integrating traditional and innovative approaches to health.

The Neurobiology of ADHD and Pathways to Support

Daniela Deiosso, MSc, PGDip Anthroposophic Medicine

2:30 pm

Daniela Deiosso, MSc Neuroscience and PGDip Anthroposophic Medicine, co-founded the Klinghardt Institute and founded A.R.T.® Global Education and Ki Science. She specializes in Autonomic Response Testing® (A.R.T.) and focuses on neurodevelopmental disorders and autism.

Approaching Autism as an Environmental Disorder: The Complexity of Strategy

Dr Nicola Antonucci

3:00 pm

Director of the Biomedical Center for Autism Research and Treatment in Bari, Italy, Nicola Antonucci integrates biomedical approaches to support children with neurodevelopmental disorders. He is recipient of multiple research grants for autism.

OUR HEALTH OUR FUTURE PROGRAM | 27/28 - 09 - 2025

Nutripuncture as Post-Covid Support

Dr Francesca Marzetti

🕒 4:30 pm

Professor of Bioengineering at the University of Washington, Gerald Pollack's book, *The Fourth Phase of Water*, won the World Summit Excellence Award. The recipient of numerous awards, he has presented his groundbreaking work at the United Nations.

Recognising and Providing Relief for Pathogen-Triggered Neuropsychiatric Disorders

Gillian Crowther, MA Oxon, ND/NT

🕒 4:50 pm

A naturopath and registered nutritional therapist, Director of Research at the UK's Academy of Nutritional Medicine and scientific advisor to the Klinghardt Institute, specialising in PANS/PANDAS and integrative family care.

Q&A Panel

🕒 5:45 pm

A.R.T. Demonstration

🕒 6:15 pm

Sunday

What we have Learnt from the COVID Pandemic and why it must Never Happen Again

Prof. Angus Dalglish

🕒 9:30 am

Emeritus Professor of Oncology at St George's, University of London and principal of ICVI. He discovered the CD4 receptor for HIV, pioneered treatments for HIV, cancer and received the Joshua Lederberg Prize in 2011.

Systems Biology Platform for Botanical Adjuvants in Healing Neuro-Immune Disease, Cancer and Cardiovascular Disease

Judy Mikovits, PhD

🕒 11:00 am

A biochemist and molecular biologist who in her 40 year quest to understand the causes, prevention and treatment of chronic disease, has authored 300+ publications, holds patents in cancer therapy and is a New York Times bestselling author.

OUR HEALTH OUR FUTURE PROGRAM | 27/28 - 09 - 2025

Spike Detox with Augmented NAC and Urine Spike Test – Clinical Results

Fabio Zoffi PhD

🕒 12:00 pm

A high-tech entrepreneur, Fabio Zoffi leads ZeroSpike.org, researching solutions to detoxify the spike protein. The inventor of Augmented NAC, he integrates advanced technology with traditional wellness principles to pioneer wellbeing solutions.

Biological Dentistry: the missing link between Functional Medicine and full healing

Dr Giuseppe Marinaci

🕒 2:30 pm

A biological dentist trained by the global pioneers in metal-free dentistry and a UK leader in ceramic implants and jawbone cavitation surgery. He integrates advanced dental techniques with holistic health principles and is a dental A.R.T. practitioner.

Reversal of Amyotrophic Lateral Sclerosis (ALS)

Dr. William Lee Cowden, MD (remote link)

🕒 4:00 pm

Co-founder and Professor at the Academy of Comprehensive Integrative Medicine and principal investigator for HealingALS.org, Lee Cowden has pioneered integrative treatments for cancer, chronic fatigue, Lyme and other illnesses, teaching globally since 1985.

Q&A Panel 🕒 4:45 pm

Final thoughts and wrap up

Rob Verkerk PhD & Daniela Deiosso MSc

🕒 5:45 pm

Prof Angus Dalgleish MD FRCP FRACP FRCPATH FMedSci, was the foundation Professor of Oncology at St George's, University of London from 1992 and is now Emeritus Professor at City St.

Break

Coffee break 🕒 11:00 am | Lunch 🕒 1:00 pm | Tea break 🕒 4.30 pm

Partners for Health

We are excited to introduce the partners who will enrich the "Our Health Our Future" event with their stands. They are not just exhibitors, but carefully selected organizations, chosen with deep commitment and in full harmony with the mission and philosophy that guide A.R.T. Global and the Klinghardt Institute.
